

Air scrubber HAC-10

1000 m³/h

HAC-10 is a portable air scrubber with integrated high-efficiency HEPA filtering system. It is an excellent solution to capture potentially unsafe air contaminants in renovation or construction spaces up to 50m².

- Compact and lightweight
- Works in vertical and horizontal position
- G3 pre-filter and HEPA H-13 filter
- Filter change reminder (light)
- Filter leakage alarm (light and buzzer)
- Hour meter available

Technical specifications

HAC-10

Maximum airflow	1000m ³ /h
Motor type	induction motor
Power supply	1 phase, 230V, 50Hz, 10A
Dimensions (LxHxW)	53x43x42cm
Frame structure	aluminum
Weight	19.5 kg
Adjustable airflow	2 speeds
Power outlet	integrated
G3 pre-filter	included
H13 HEPA filter	included
Filter change reminder	integrated
Filter leakage alarm	integrated
Hour meter	optional
Inlet and outlet hose connection	optional
